Mr. John Kelin
894 S. Palisade Ct.
Louisville, CO 80027

Dear Mr. Kelin,

It was very thoughtful and I thank you for it.

Life has been a real history lesson for me!

In looking back on some of those anti-American experiences of my youth, aside from wondering how I survived the, it tells me again that we all have the obligation to do what we can to support the fine system we were blessed with by those best of all political thinkers, our Founding Fathers, and do what we can to preserve it, save it from all those who would change it to suit their indeas or interests.

When you are finished I'll appreciate a copy to add to the archive of all my records at local Hood College, a fine small one where most of those records are already because of the thievery that has not ended and took more than I can ever know.

Again, thanks and best wishes,

Harold

I asked the college to take them as soon as it could and it did but it will be a little time before all the necessities are taken care of and they can be made accessible, so please do not say much about it now so they will not be having to tell people to wait or even take the time to respond now. I am sure that when it is all taken care of there will be an announcment.
